

## Find The Perfect Wedding Theme

By Mari Widmore

You have decided on a date for your wedding and you have to start making the initial plans for your big day. In the past the most sensible thing to do was to hire a skilled wedding planner to do the work for you. But today it's a different story. With all the information available on the internet, it has never been so easy to plan your wedding yourself! This will not only save you a significant amount of money, it will also give you a chance to put your organisational skills at test, plus, you will still have complete control over every detail of your wedding!

One of the first things to be decided when planning a wedding is a wedding theme. This helps a lot when planning the rest of the wedding, as the wedding theme can be incorporated in most all aspects of the wedding. The theme can be carried out in the choice of everything from centerpieces to songs. There are lots of popular wedding themes out there, but if you are having problems deciding, let your imagination run wild, and plan a wedding that is very personalised, it will make the day even more special! The theme can vary from a fairy tale wedding to a heavy metal themed wedding! There are numerous resources available online so be sure to get lots of ideas before you decide on your theme!

Everything from the cake to the wedding invitations can be consistent with your chosen theme, the more the better! When choosing a theme, make sure you consider your budget as well as the time it will take to prepare everything. What you don't want is to come up with an over the top theme only to find out, maybe too late, that you just don't have the money or time you need to do everything the theme requires. So make sure you give yourself enough time to really pull it off, and make sure you don't spend all your savings on this one day, even though it is important, you still have a full life together ahead of you! So plan everything carefully and make sure you enjoy every minute of your big day, getting married isn't something you will do every day!
